Experience

Frontend Developer Internship | Certificate   **May 2022 - Current**
Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Freelance Frontend Developer   **October 2022 - Current**
Self Employed

- Delivered professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and React best practises
- Improved website performance by compressing, caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world

School Tutor
Bossley Park High School

- Supported students in HSC studies and assessments related to mathematics and physics
- Explain subjects tailored to the student with different approaches and problem-solving skills
- Help to guide students in analysis through clear communication and active listening

Projects

Movie Website| Website| GitHub
- Developed a functional movie website that searches key words from the API, stores relevant user interactions.

Hulu Clone | Website| GitHub
- Created a fully responsive movie application with search, loading, fetching data and storing data functionalities (e.g. OMDb API, render, filter system)

UltraVerse NFT World | Website| GitHub
- Created a fully responsive NFT app, with integration of multiple API's and using reusable code.
